Project Report

Spring 2019-2020

Project Title: Social Site

Section: J

Student Name	Student Id
Emrul Hossain Minhaz	18-36040-1
Mia Asif	18-36030-1
Sultan Ahmed	18-36017-1

Social-Site

Introduction:

This Social Site is for those users who want faster and easier ways to contact with their friends and family. This Social gives them a smooth and effective surfacing through online messaging and connect each-other. This is a user friendly and secure browsing through internet.

Background Study:

We have studied and gathered knowledge from the following sources

https://www.youtube.com/results?search_query=uml+daigrams

<https://www.investopedia.com/terms/s/social-networking.asp>

<https://royal.pingdom.com/the-software-behind-facebook/>

Requirement Analysis:

1. User Category:

There are two types of Users here. They are:

- System
- User

2. Feature List:

In this project the “System” has the following features:

- Approve User Account
- Register User Profile
- Check User Account
- Delete User Profile
- Send/Receive Messages into Database
- Make System Announcement
- Release System Updates
- Send User warning
- Suspend User Account

In this project the “User” has the following features:

- Send Friend Request
- Edit Profile
- Post Messaging
- Report Account
- Uploads Photos

Tools Used:

To develop this project, we have used the following:

- Web Browser
- Dia
- Text Editor
- Photo Editor

Enter your username	<input type="text"/>
Enter your password	<input type="password"/>
<input type="button" value="SignIn"/> SignUp	

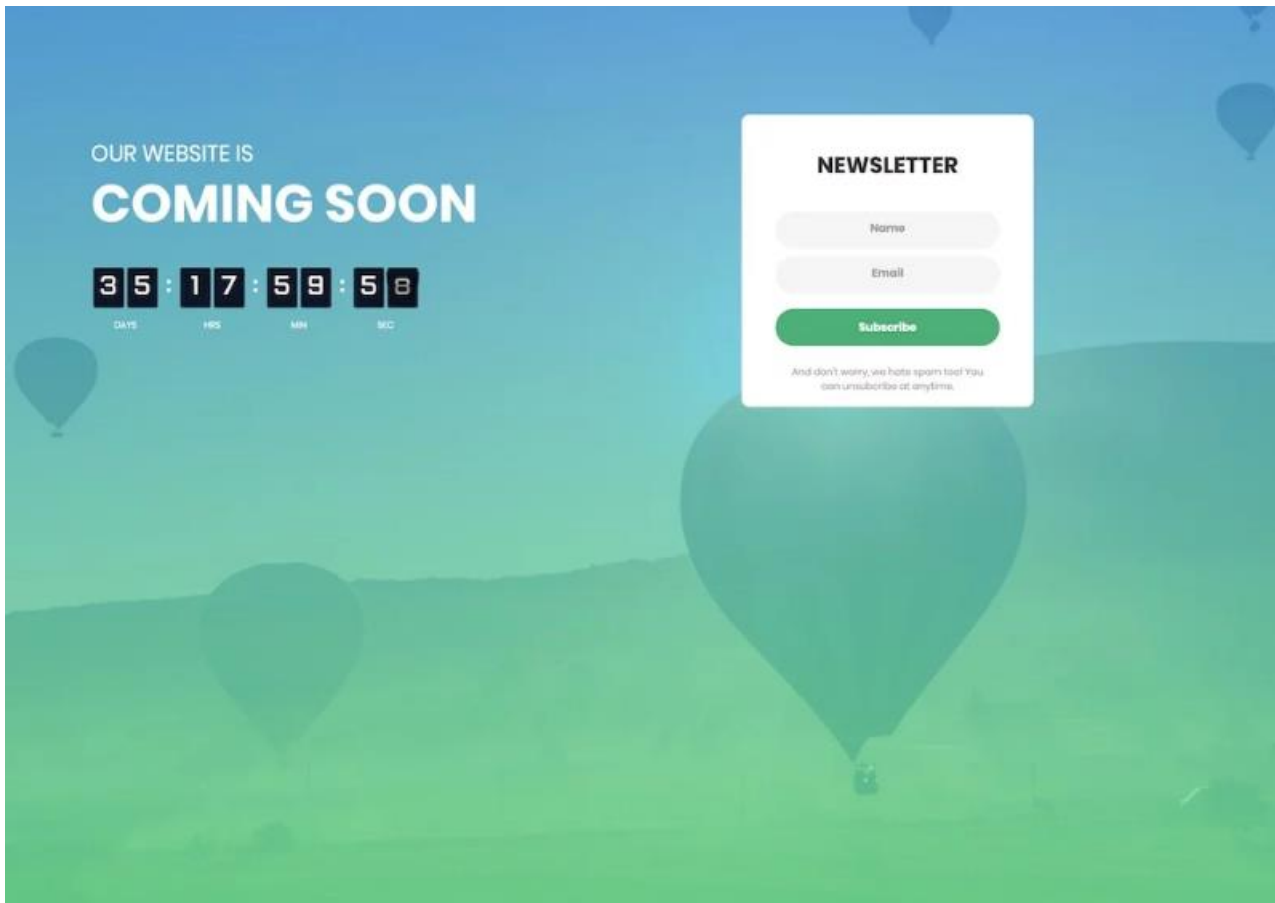

This is a Login Page Where username and password that allows a person to log in our system.

Registration form	
Enter your first name	<input type="text" value="enter your first name"/>
Enter your last name	<input type="text"/>
Enter your password	<input type="password"/>
ReEnter your password	<input type="password"/>
Enter your email	<input type="text"/>
Enter your mobile	<input type="text"/>
Enter your address	<input type="text"/>
Select your gender	male <input type="radio"/> female <input type="radio"/>
Select your hobbies	hobby1 <input type="checkbox"/> hobby2 <input type="checkbox"/> hobby3 <input type="checkbox"/>
Select your DOB	<input type="text" value="dd-mm-yyyy"/>
Select your Country	<input type="text" value="Select your country"/>
Upload your pic	<input type="button" value="Choose File"/> <input type="button" value="No file chosen"/>
<input type="button" value="Save My Data"/> <input type="button" value="Reset Data"/>	

This is a Registration Page Where email and password that allows a person to register in our system.

Social-Site

This the home page for social site which is under construction. Feature will be added soon by which user can able to chat and things.

Impact of this Project:

People are so busy today; however, they cannot connect each-other via internet many a time. Sometime if it is possible, they can face a lot of major security issues and also effectiveness of the site issues. So then this project come alone with a positive vibe to give user a user friendly and efficient surface to connect with friends and families.

- **Uniqueness:** There are so many unique features in this site.
 - ♦ **Security Issue:** User can assure secured surfacing though on this site.
 - ♦ **Information Stored:** Well Stored of User information.
- **Feedbacks:** User can give their feedbacks and share their ideas which possibly taken by the developers.
- **Upcoming Events:** User will get a lot of features like photo editing and share them, upload linkable files, connect their account with google, Facebook etc.

Social-Site

Limitations and Possible Future Improvements:

There a lot of things can be done but unfortunately lack of time and enough resources these things could not done in this update. But good news is, a high possible to update these upcoming features as soon as possible. And will try to improve previous lacking's and fix bugs.
